Improving Developmental Outcomes for HIV Exposed Infants

African Regional Convening to
Support Parents and Caregivers
22 June 2022

OVERVIEW OF m2m'S INTEGRATED ECD/RMNCH PROGRAMME IN 2019-2021

m2m ECD / RMNCH and NURTURING CARE FRAMEWORK

Goal:

To improve the health, wellbeing and developmental outcomes of HIV-positive, HIV-exposed and other vulnerable young children, as well as their parents/caregivers (including improving uptake of RMNCH/PMTCT services and promoting maternal and child health and nutrition).

1. **Integrate ECD** into m2m's facility and community RMNCH/ PMTCT services.
2. **Improve health and wellbeing of vulnerable children** aged 0-5 years through promoting optimal development and reducing HIV vertical transmission, and improving linkages and retention in care among children aged 0-5 years.
3. **Improve health and wellbeing of pregnant women and mothers** of young children.
4. **Create a safe and stimulating environment** for early childhood development within health facilities, homes and communities.
